DEDICATED CHURCH HOUSE. First Congregational Church Formally Opens Their Fine New Building.

The dedicatory exercises and formal spening of the new church house of the First Congregational church of Willimantic, long looked forward to by the members of the church and of the various societies and clubs connected with it, all of which will have rooms devoted to their use in the spacious and commodious building, took place Wednesday evening.

clous and commodious building, took place Wednesday evening.
Previous to the exercises the Ladies' Society of the church served an excellent supper in the main assembly room of the church house, which was enjoyed by about 300 people.
The dedicatory exercises began at 8 o'clock with the assembly room filled to overflowing. Rev. William S. Beard in his foreword welcomed the large number present and spoke of the church house as the realization of a

church house as the realization of a dream and one which seemed almost like a dream still. He spoke something of the history of the inception of the work, from the first gift by the K. K. club to the gift of \$5,000 by Mrs Holland and the raising of the balance of the sum necessary. This church house is for the service of the by Mrs Holland and the raising of the balance of the sum necessary. This church house is for the service of the entire female population of Williman-tic in its athletic equipment. At the present time there are 100 enrolled and its capacities are already out-

Mr. Beard praised the work of the architect, E. C. Sharpe, and called for

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be accounted. DEAFNESS CANNOT BE CURED

for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free F. J. CHENEY & CO., Toledo, Ohio. Sold by druggists. 75c.

a rising wote of appreciation of his service, which was heartly accorded. All who had worked to make this hour possible either as individuals or organizations, were accorded their mead of praise and the press came in for its share of appreciation.

The Bugle Sons followed, delightfully rendered by the church quartette, consisting of Miss Elsie D. Brand, soprano; Miss Louis J. Barton, alto: Arthur R. Blackiedge, tenor and Charles H. Caswell, bass and director, accompanied by Mrs. Charles H. Caswell. The services of the quartette were given for the evening.

Financial Side. Financial Side.

The financial secretary's report was given by Charles F. Rissdorf, who stated that there were 502 pledges and 16 special contributors, out of the 502, 460 were paid in full, 9 in part, with 42 delinquents. The pledges brought in \$16,222.44 ranging from \$5,000 to 20 cents, and the sum of \$554.23 from the special contributors, making a total of \$16,786.57. Practically all of this sum was taken in after April 1, 1913, when the sum was very small.

after April 1, 1913, when the sum was very small.

This report was followed by that of the treasurer, Fred D. Jordan, showing the amount received from the financial secretary and the various Items of expense disbursed, with \$1,298 and some cents yet in the bank. There are, perhaps, bills to the extent of \$300 yet to be paid.

Handing Over the Keva.

Handing Over the Keys. The formal transfer of the building was made by George S. Taylor of the building committee and the keys received by Walter. B. Knight of the Ecclesiastical society.

A motion, made by E. Frank Bug-

A motion made by E. Frank Bugbee and unanimously carried, was to the effect that the secretary correspond with Mrs. Holland, regretting her inability to be present and again thanking her for the generous gift which made the building possible.

The main address of the evening was delivered by Professor William E. Bailey. Ph. D. of Yale university, and was preceded by "Annie Laurie" beautifully rendered by the quartette. "Rockin' Time" concluded the exercises after Professor Bailey's address. Prof. Bailey was introduced as one who "has the social vision of the church of today," and lived up to the introduction in an address upon social problems interesting and highly instructive.

cial problems interesting and highly instructive.

So far the community has taken practically no part, he said, in how people spend their leisure. What tells the character of a person is the manner in which he or she spends her leisure. If it is spent right, he goes ahead, if wrong, he goes behind.

Over 10 per cent, of the population of the Sunday school is engaged in the occupation of amusing the rest of us, and thus giving pleasure has been commercialized. The result is a great deal of demoralization. The community should begin to concern itself with how leisure time is spent.

The appeal I wish to leave with you is to socialize your lives, to touch the is to socialize your lives, to touch the note persoanl service, to enlarge your vision and put your life on a higher

Those in Charge.

The committees in charge of the building of the home and the dedication were as follows: Finance committee, E. Frank Bugbee, James P. Bath, Jay M. Shepard, Charles F. Risedorf, Fred D. Jordan, George S. Elliott; the building committee. Frank Larrabee, George F. Taylor, Walter B. Knight; committee on the opening, Arthur C. Everest, Miss Louise Holt, Mrs. Frank Larrabee; committee on the supper, Mrs. George S. Elliott, Mrs. George Burnham, Mrs. W. B. Knight, Miss Edith Ticknor, Mrs. A. R. Burnham, Mrs. E. H. Richmond, Mrs. George Spencer, Mrs. Seth Billings, Mrs. O. B. Clark, Mrs. Frank Deming, Mrs. Clarence E. Simonds, Mrs. E. B. Hanna, Mrs. Edward F. Ellsworth, Mrs. Charles B. Utley, Miss Kate Stillman, Miss. Those in Charge. Utley, Miss Kate Stillman, Miss nny Bishop, Mrs. A. V. Segar, Mrs.

John Gager. Description of the Building. The church house is of brick con-struction, substantial and of fine appearance, with two stories and a base-ment. It is connected with the church building proper by a ramp leading to the left of the side entrance hall.

The main entrance is approached by a short flight of steps and a porch lead-ing into the vestibule. At the left of ing into the vestibule. At the left of the vestibule is the front descent to the basement floor, and on the right a telephone booth and ticket window, to be used for affairs at which admission is charged.

Main Assembly Room for Over 300. The main assembly room, with a ca-capity of over 200 people, opens direct-ly from the vestibale. It is well adapt-

ed to the purposes for which it will be used and includes a stage, with dressing rooms on either side, and head and footlights. The lighting system of the room is semi-indirect. The furnishings include a pulpit given by George Hoft, Miss Louise Holt and Mrs. A. B. Carpenter in memory of Mr. and Mrs. Austin Holt; chairs given by Mrs. A. B. Carpenter in memory of Mr. and Mrs. Atlan Lincoln; draperies given by Mrs. E. G. Barrows; desk and chair given by Mrs. E. G. Barrows; desk and chair given by Mrs. I. S. Rollinson Little; a rug by Mrs. John Randall; shades here and in the entire building by Mrs. H. C. Murray; an Estey plano given by Mrs. Ellen S. Wilkins, Miss E. P. Woodward and A. C. Andrew; a pulpit lamp given by Robert O. Branch in memory of his wife, for five years organist of the church. The room will be used for the purposes of a Sunday school, for lectures, concerts and social purposes of the church and its societies.

ties.

Like the other rooms on the first floor, the assembly room is finished in oak, stained. The rooms upon the second floor are finished in gumwood with the exception of the ladies' parlor, which is in oak.

A well appointed and well lighted kitchen completes the equipment upon the first floor. The walls are lined with cabinets for china and kitchenware, and there are two ranges in the

ware, and there are two ranges in the room, one the gift of the Willimantic Gas and Electric company, as well as a gas heater and a coffee urn, the gift of the Ladies' Aid society.

On the Second Floor.

On the second floor are rooms given ever to the use of various organiza-tions of the church life, including the over to the use of various organizations of the church life, including the Boy Scouts' room, the table for which was the gift of George E. Hinman, and the other furnishings were bought by the organization; the Grex club room, furnished by themselves at an expense of about \$100; the room of the Girl Pioneers, furnished in rattan by themselves at an expense of \$40; the rooms of the Sodalitas and the laddes parlor, so arranged that they can be thrown together upon occasions, and furnished by themselves; and the two kindergarten rooms, the draperies in which were furnished by the mothers of the children, the rug by Mrs. Helen Boss Cummings, the screens by Miss Fannie Bishop and the desk and chairs by five ladles who used to teach in the department, Miss Louise Holt, Mrs. May E. Gates, Mrs. Kate H. Arnold, Mrs. Kate H. Taylor and Miss Bertha Johnson. These two rooms are also equipped with folding doors so that they may be thrown into one.

The room devoted to the ladies has a spacious fireplace and a door from the room leads on to an outdoor porch. The rug in the Sodalitas room was the gift of Miss Laura Young. All the rooms on this floor are well equipped with closets, and all the closets are lighted by electricity.

In the Basement,

In the basement is a small room for the use of the Boy Scouts, a small kitchenette for the young people, the coat room and the gymnasium, already in use by the women and girls of the city, irrespective of creed or race, upon payment of the small sum required for the courses given. The shower baths, dressing room and lockers are yet to be installed, but \$380 of the \$1,000 considered processary to finish the equipsidered necessary to finish the equip-ment of this branch of the work has been raised.

Gifte Made. In addition to the gifts enumerated, mention should be made of some others. The first \$10 given toward the church house was presented by the K. K. club, and with that money a picture of the Sistine Madonna has been turched by the K. S. club, and with that money a picture of the Sistine Madonna has been turched to have the walls. purchased to hang upon the walls. There is also a picture of Murillo, The Children of the Shell, given by Court Children of the Shell, given by Court Sorosis, Queens of Avilion; a picture and a Bible by Samuel Chesbro; two steel engravings by C. P. Croft; a book of reproductions of paintings given by Mrs. Henry Lincoln, and sums of money for furnishing the house by Mrs. C. B. Pomeroy, Mrs. Frank Larrabee and Messrs. W. H. Smith, George E. Gifford, A. W. Turner and R. B.

Out of the \$17,000 subscribed toward building the church house, less than 2 per cent. is at present uncollected, and there is on hand now enough to grade the sidewalks in front of the building, so that the work will be begun soon.

The Largest Contributor.

The largest controbutors from out of town have been Mrs. Jane Holland of Boston, whose gift of \$5,000 was a great factor in bringing about the success of the undertaking, and Col. Eugene Atwood of Stonington and Austin C. Dunham of Hartford, both of whom

gave substantial amounts.

The architect of the building was E.
C. Sharpe, who gave his services gratic
to the society. Doyle & Murphy were to the society. Doyle & Murphy were the general contractors, A. B. Holmes did the painting, Moriarty & Rafferty the plumbing, and H. H. Lyman the steam heating, electric work by Ashton and the foundation work by Charles Larrabee.

Clean-Up Committee Hampered by Bad Weather.

Rain has come again this week to

Rain has come again this week to interfere more or less with the work of the clean-up committee and their helpers. A great deal of work has been accomplished, however, and a great change effected in many unsightly spots about the city.

Many places which should have received attention, nevertheless, have remained as before, and at the next meeting of the committee, some method of reaching those who are not touched by civic pride will be talked over. Whether the result will be the over. Whether the result will be the photographing of those places, and publication of the photographs, and the names of the owners, or whether some other method will be pursued, has not been definitely decided as yet.

ADVICE ABOUT HOW TO REMOVE UNSIGHTLY HAIR

Many physicians use the ingredients contained in El Rado for removing hair in connection with their laboratory work. This shows conclusively how perfectly harmless its action is. Theusands of women have discovered this, too, and have learned how totally unnecessary it is to go around with unbeautiful growths on lip, chin, cheek, neck or arms. They apply a few drops of El Rado, the liquid hair remover. Almost instantly the hair vanishes, leaving the skin smooth, velvety and even whiter than before. This is because, postively without the slightest harm, the hair has been dissolved.

El Rade is now a standard tollet article, used by thousands of women. You need have no more hasitation in asking for and using a tollet powder. Try El Rado en your arm; prove for yourself that it will do sverything claimed. Your money back if you are not entirely satisfied. In 100, and \$1.09 size bottles at all leading drug and department stores, or irect from the Pilgrim Mfg. Co., Yew York, Valuable information sent in request. Hefty Carp—If Fish Stories Are True.
Schools of Garman carp are report.

Schools of German carp are reported in the Quinebaug river. If some of the stories are to be believed, this spethe stories are to be believed, this species of fish is showing examples of growth that would have interested Jonah were he in these parts now and again considering taking up his abode within a denizen of the depths. The carp navigate the Quinebaug in schools. Some of the fish reported weigh probably as much as a dozen pounds, though the reports about them would indicate a weight of not less than a ton.

CERTIFICATION PRIVILEGE. Renewed for Three Years for Pupils Who Are Graduated from K. H. S.

Professor Frank W. Nicholson of Wesleyan university, secretary of the New England College Entrance Certificate board, has sent notification that Killingly High school has again been approved by the organization rethis period lasting until December 31, 1917. The certification privilege en-ables students who are graduated from the local high school to enter all New England colleges and universities, ex-cepting Yale and Harvard, without taking the entrance examinations. Killingly High school has constantly maintained such a standing that the certification privilege has never been suspended since it was first granted years ago, though high schools in larger places in Connecticut than Danielson have in many instances temleison have in many instances tem-porarily lost the honor through al-lowing the standard of the schools to drop below the required "degree of

CLEAN-UP SUGGESTIONS.

Issued Wednesday by Committee-Requests to All Residents to Join in Good Work,

The Clean-Up week committee is hard at the work of urging every-body to do their utmost this week in brightening up the borough. Satur-day, if the committee is notified, teams will be sent around to remove the piles of rubbish and debris of various kinds collected and will dispose of it.
On Wednesday the committee issued the following list of "pleases" that if heeded will mean much toward beautifying Danielson:

Please rake your yard.
Please clean your cellar.
Please place all rubbish, tin cans, etc. in barrels on the sidewalk. Teams will call to collect Saturday.

Please burn old papers, boxes, etc. Small bonfires are safer than large Please do not neglect the chicken

Please see that your cesspools are

coops—use whitewash.

Please seek out and remove breeding places of mosquitoes: empty pails, tin cans, old barrels, drain pipes, drain

Please swat the fly. Don't spare Please do not throw papers or fruit skins on the street or on Davis park; find the rubbish cans. Please show a public spirit by doing

your share to beautify your own street and town.
Please remember. Saturday. May 16; have rubbish ready for removal. Cold, Disagreeable Thunderstorm.

Cold, Disagreeable Thunderstorm.

A storm of wind and rain, with lightning and thunder swept over Danielson during the early hours of Wednesday. The weatherwise predicted that this meant the end of the cold, gray disagreeable weather than has so far characterized "the beautiful month of May," but the light of Wednesday's day was accompanied by a temperature that might have been expected on an October morning rather than near the middle of the spring season. Farmers in this section are very much worried over crop prospects for the year. Most of them are far behind their regular schedule of spring work. Those who have done some planting and made something of a start are anxious because of fear of losing through rotting and that they will have their work to do over again.

CARTLOADS OF RUBBISH Taken Away During Clean-Up Week -Supt, Hatch's Interesting Report.

David H. Hatch, superintendent of the carting committee of the Clean-Up week organization, makes an interesting report of work accomplished. Mr. Hatch shows that 206 loads of debris were removed from the city. The loads of garbage numbered 119, the loads of ashes 87. This was removed at a cost of only 15 1.2 and 15 1.2 a cost of only 16 1-2 cents a load. The results achieved have been very satisfactory and the city is now cleaner than it has been at my time since the clean-up campaign of a month ago.

STAFFORD SPRINGS

TROLLEY LINE

Discussed at Meeting Wednesday for Temporary Organization-Committee Named to Secure Articles of Incor-

A few more than a score of persons interested in forming an organization for promoting the plan of building a railroad through Woodstock and Eastrailroad through Woodstock and Eastford and on to Stafford Springs, a distance over the route selected of 31
miles, "athered in Odd Fellows' hall
Wednesday afternoon for the first
meeting for discussion of the subject.
George L. Baldwin of this city, who
has done the greater part of the work
of planning the proposed road and
developing interest in it, explained
at length the feasibility of the plan
and the possibilities of making it a
paying investment. paying investment. Important Freight Tonnage.

He told those present that he had been surprised when looking into the matter to find that one-fifth of the freight tonnage that comes into Put-nam for local and sub-local distribu-tion goes into the territory that would be served by the proposed road. Mr. Baldwin also called attention to the fact that the freight received here does not represent all that come by does not represent all that come by rail to freight stations other than the one in Putnam. Southbridge, Quinebaug and Webster, to some extent, are other stations where goods are received for persons who live in the various sections of Woodstock and other towns that would be served by the road that is being talked of the road that is being talked of, Other Sources of Revenue,

Other Sources of Revenue.

Other sources of revenue for the road mentioned by Mr. Baldwin included United States mail contracts, estimated to be worth \$5.000 a year; milk shipments, which are heavy from the agricultural country through which the road would pass; lumber, of which there is a great quantity in the tier of towns in the northeastern section of the county. Heavy shipments of farm produce are also to be looked for in season.

Mr. Bladwin said that an engineer had estimated that the road could be built for \$4.700 a mile. If ralls that are being discarded by steam roads in favor of heavier iron were used, the cost could be reduced by \$1.000 a mile. There is no reason why such used rails could not be put in service on the proposed road. Mr. Beldwin pointed out.

Freight Rates.

Mr. Baldwin also had something to

Mr. Baldwin also had something to say relative to freight rates, quoting a schedule somewhat as follows as a schedule somewhat as follows as
the approximate cost per hundred
pounds of shipments to South Woodstock, four miles distant from Putnam. First class, 2 cents, second class,
3 cents; third class, 7 cents; fourth
to sixth classes, about 5 cents. Approximate rates for freight through
to Stafford Springs are 18, 16, 15, 13, 12
and 10 cents per hundred pounds, descending from the first class rate of
18 cents through the various classes.
Attorney J. F. Carpenter told the

Wednesday afternoon what it is hoped and expected will grow into a beautiful specimen of the linden tree was set out near the southwesterly corner of the high school grounds by Arndt Bretschneider, at the instance of Mrs. Marinda C. Butler Robinson, acting for Lockwood Danielson, whose ancestral home is occupied as the site of the high school building. This tree is to be a memorial, as is some the grounds about the achool.

EGZEMA ITCHED AWFULLY ON HEAD

Thought Would Go Wild. Dry and Flaky. Hair Nearly All Came Out. Used Cuticura Soap and Ointment Three Months. Head All Cured.

26 Atkinson St., Bellows Falls, Ve.—"I had eczema on my head and it itched something awful. It seemed sometimes as though I would so wild. The eczema was dry and flaky. One day I combed it hard with a fine comb and made it all raw, My hair nearly all came out gradually so I had a small twist of hair and did not use but one hairpin to hold it.

"I tried ——but in vain; it did no good. Then I thought I would try Cuticura Soap and Ointment. I used them three months and then my head was all cured and my hair began to grow so it is quite thick now; I have four times as much as I had."

I have four times as much as I had." (Signed) Mrs. Ellen W. Adams, Nov. 16,

FOR PIMPLES AND BLACKHEADS

The following is a most effective and eco-nomical treatment: Gently smear the af-fected parts with Cuticura Ointment, on the end of the finger; but do not rub. Wash off the Cuticura Ointment in five minutes with Cuticura Soap and hot water and continue bathing for some minutes. This treatment is best on rising and retiring. At other times use Cuticura Soap freely for the toilet and bath, to assist in preventing inflamma-tion, irritation and clogging of the pores, the common cause of these distressing facial eruptions. Sold throughout the world. Liberal sample of each mailed free, with 32-p. Skin Book. Address post-card "Only 1975" cura, Dept. T. Boston."

Men who shave and shampoo with Os-ticura Soap will find it best for skin and scalp.

meeting that a road from Chepachet to Putnam, the eastern division of the proposed road, seems practically as-sured, as another company will prob-ably build if the one now being talked of here falls to do so.

Farmers Want Line, In an interview Mr. Baldwin told of the interest that the farmers in Wood-stock and Eastford and all through that section are taking in the propo-sition to give them railroad service. Mr. Baldwin says that he has already been offered a sufficient number of ties, in exchange for stock of the proties, in exchange for stock of the proposed corporation, to more than meet the demands for ties along the whole route. The farmers are extremely anxious to get a line up through a country that they are certain would develop 100 per cent. faster with such an accommodation and would also provide them with facilities for profitably disposing of lumber that cannot be hauled out now without striffcing much of its value by increasing the cost of transportation over what they think it should be.

Temporary Organization Effected. G. N. Baldwin was named as per-manent chairman of the temporary or-ganization and George W. Perry, C. E., ganization and George W. Perry, C. E., as clerk. Sheriff John O. Fox, George E. Shaw, J. F. Carpenter, C. F. Per-rin and A. M. Bowen were named as a committee to secure articles of incorporation.

A committee of 15, three members each from the five towns of Putnam. Woodstock, Eastford, Ashford and Stafford was named to investigate the Stationd was named to investigate the feasibility of building over the pro-posed route and to get opinions of people resident along the line as to the plan of giving them railroad service.
